TO WHOM IT MAY CONCERN

It gives me a great deal of pleasure in providing a reference for Lynda – a lady who I feel, has changed the face of wildlife education here in Victoria with her enthusiasm, dedication, vast knowledge and style of presentation.

Lynda inspires people with her enthusiasm, she encourages people to seek answers, to solve problems and more importantly, to become better carers and custodians of our wildlife.

I have personally been involved in organising and presenting lectures for over 15 years and I have never encountered anyone quite like Lynda. She is the most entertaining and knowledgeable speaker and an absolute delight to listen to. It is indeed rare to find a personality such as Lynda who has the capacity to motivate and inspire so many people. She has given us a very strong legacy and I thank her sincerely.

Yours sincerely

**Denise Garratt
Director
Help for Wildlife**

Help for Wildlife is a voluntary, non-profit organisation. It is Victoria's largest single provider of wildlife assistance offering a 24 Hour State-wide Wildlife Emergency Service.
